Proposal Draft on 'Pollution Management' ,NEXT Hackathon

Pollution has been one of the major problem in the current scenario. Here I have proposed a Hackathon to let the people having different ideas to co-operate and work for that problem.

Here are some of the things I have noticed so far regarding organization of Hackathon.

1. Format of the **HACKATHON**
   Maximum group: 30
   Candidate/Group:3-4
   Duration : 40 hrs continuously from first day of the event
   Entry fee : 1500/team
   Selection: Registration through Google form
2. Cost Categories
   i)Banner Printing and Specific Logo design
   ii) Fooding and Lodging for participant throughout the event
   iii) Mentors throughout the event and fooding lodging for them
   iv) Transportation and advertisement
   v) Prize for winner and runner ups
   vi) certificate of appreciation for all participants
   vii)Copy/Pen for participants
   viii)Printed document of rule and regulations to be followed (for each team)
   ix)Printed Document of judging criteria
   x)Judges
   xi)Multiplugs(proper power supply)
   x)High speed Internet Facility

3. Sponsorship Package

   I) Main Sponsor
   ii) Associate Sponsor

   Top IT Companies will be our targeted sponsors some are Fuse Machines, Yomari, F1Soft etc.

Tentativse Cost : 150,000-200,000
